In connection with the attached report the French Police inform me that No.14 Rue Chapsal is a house occupied by a Japanese whose rent is paid by the South Manchurian Railway. His house was a very busy centre during the evening of the day on which the rebels emized the cruiser Chiau House. The numbers of men both Chinese and Japanese who streamed in and out alarmed the neighbours one of whom reported the matter to the French Police. The Police could do nothing as the house was that of a Japanese whoject.

REPORT ON Japanese Receiving Money from

Straits.

Made by DS. Gueno

Form 2

Forwarded by

Sir, beg to report that, in accordance with your instructions, I proceeded to the Chartered Bank at 10.20 a.m. to - day, when one of the clerks in the bank pointed out to me a Japanese named J. Yamada, who had come to the bank to receive The 4, 200. 00 remitted to him by cable from the Straits. The clark told me that yamada has received monetary remittances in the same way from the same place on three or four occasions recently. The cablegrams were addressed "Zungaburo, No. 14 Rue Chapsal." Yemada states that this is his telegraphic address, and that he works in bouth Manchuria Railway Bo. On one occasion the & calilegran was addressed "Zungaleurs, No. 14 har Chapsal". On the first occasion that money was remitted to yamada, the bank had inquires made at 16.14 hue Chopsal, but usbody we the appeared to know anything of Zungabaro.

Ofter pointing out Yamada to me the bank clerk sent him to the Japanese consulate to get prof of his identity, and I have made arrangements to have him shadowed when he comes back to get the money. The regultances gre sent by a Chinese. Jam, Sir, your obedient sevant,

To brother Ting Sz (evidently Ohen Ohi Weil'still,

When we returned to Singapore from Ih Li Ming 日本本 (?)
Exsent you a letter which, ak presume, has reached you O.K.
We went to Solo from Po Dah Wei /> 子(家)(?) the day before
yesterday and arrived here (Semarang) yesterday.
There are many rich emigrants here but owing to
their impresses that weild retained.

their importance they would rather sacrifice their lives

shak contribute money.

Fortunately good news reached here from home. two enthusiasts opened their purse to the contributions and this was responded to by others but we can only expect to collect about thirty thousand dollars and have

no hope to get a bigger amount.

We will depart for Si Seu D to day and leave Mr.

Tseng here to try to convert one or two capitalists.

This if met with success hay result in raising \$100,000. With reference to the place Si Seu 10 1/2 we learn that the Chamber of Commerce there has the intention of supporting us. Judging from this we have reasons to believe that in Java and other ports although big capitalists will not open their purse about \$100,000 will be raised. But we are unable to know exactly until we arrive there. In short during our visit this time to the south in the British and Dutch Colonies we can raise \$150,000 in a month's time. If in Shanghai and in other parts a rising takes place we can foresee that the contributions will come continually.

After our visit to Si Seu Work we intend to return to Singapore where we will discuss with Do Wen 2 (Chaing thi wrote to us saying that Do Wen would come to Singapore very soon) and then decide our movements. Our opinion is that a long stay in this place is not suitable at all. The proverb has it "One can only become a guest temporarily and not permamently. "If we stay long others would feel uneasy and besides owing to unsatisfactory communications we are at a loss to know what has happened or is going on in our motherland. It is also not good if we return. Tih Sun (5) 2) has sent many others to return (? to China) We are reasing about here much against our will and also against the will of others.

Since we left you we have not yet been favoured with your news from the interior which we regret. We hope that on receiving this letter you will send us a telegram. Perhaps, if you order us to return it may help in awakening the people and arousing them to find others to replace us. The contributions raised in British Colonies will be sent to Shanghai while the money raised in Dutch Colomies will be sent to Tokio.

As you always communicate with those in Tokio you must know all about it. Simos our movements are uncertain we cannot tell you all we desire to say. Excuse us. With compliments.
